Please let us know what books or genres you might be interested in. Do you have a favorite... book, author, series, study? Others might enjoy it too. For example:

One of my favorite books is "Fearfully and Wonderfully Made". It was written by an orthopaedic surgeon, Dr. Paul Brand, who worked a lot with patients with leprosy. He compares the human body to the body of Christ. It captured my attention because I was a registered nurse and always fascinated by the walking miracle called the human body. In every chapter he compares this miracle to another—the Body of Christ. "This book uncovers eternal statements that God has made in the very structures of our bodies, presenting captivating insights into the Body of Christ." (book jacket) You can find this book in our library BV600.2.B67.
